Quickstart

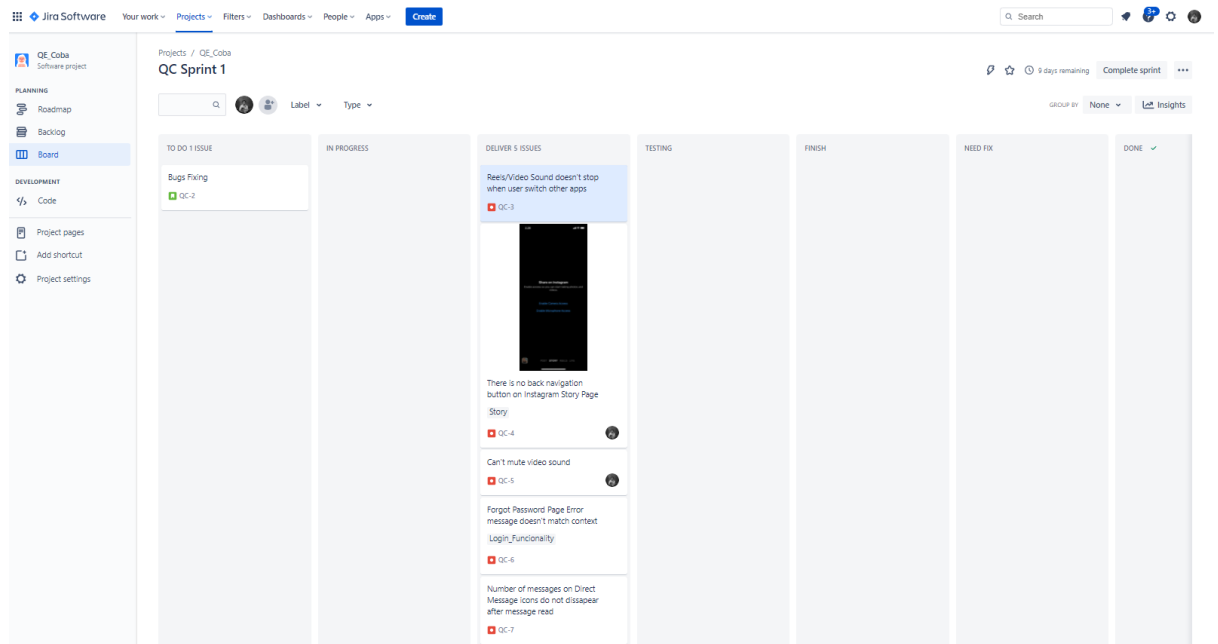

3. QA Engineer moved Issue to “Need Fix” panel

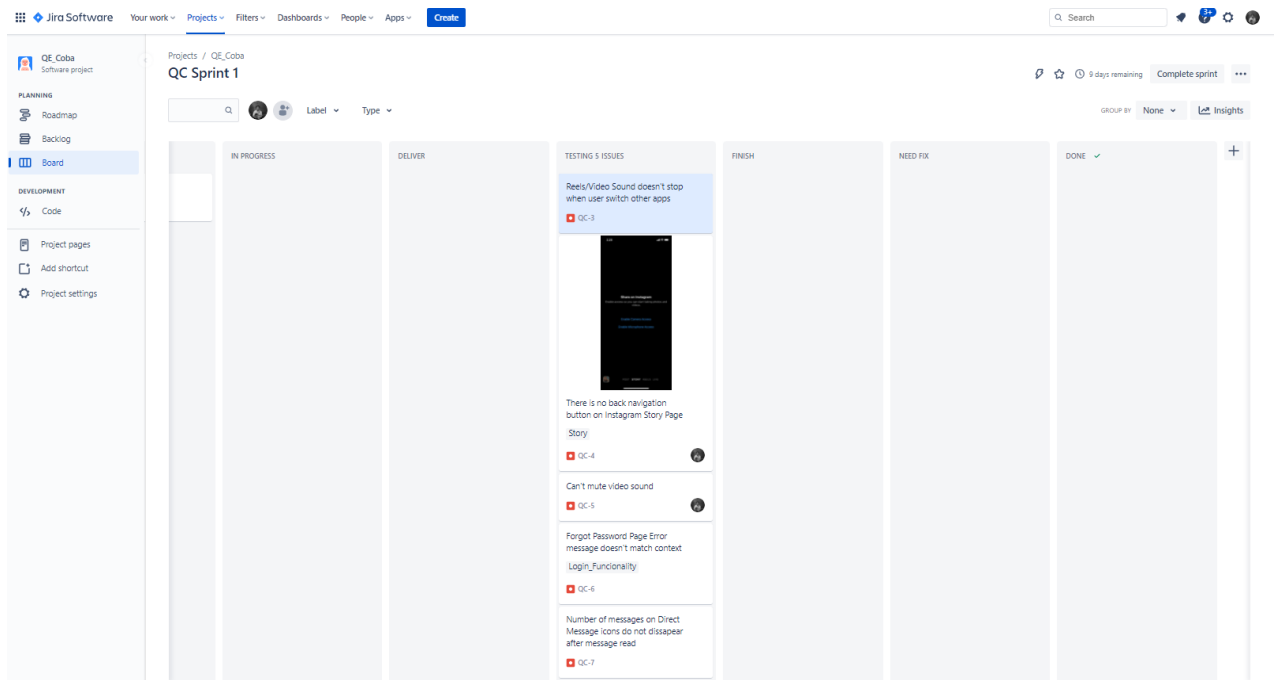

4. Developer moved issue to “In Progress” panel, fixing the bugs

5. When feature finished and ready to be tested, Developer moved Issue to “Deliver” panel

6. QA / tester test the feature

7. Bugs fixed, Issue moved to “Done” panel

The screenshot shows the Jira Software interface for a project named 'QE_Coba'. The main view is a Kanban board for 'QC Sprint 1'. The board has columns for 'IN PROGRESS', 'DELIVER', 'TESTING', 'FINISH', and 'NEED FIX'. On the right side, there is a 'DONE 5 ISSUES' panel. The issues listed are:

- Issue 1: Reels/Video Sound doesn't stop when user switch other apps (QC-3)
- Issue 2: There is no back navigation button on Instagram Story Page Story (QC-4)
- Issue 3: Can't mute video sound (QC-5)
- Issue 4: Forgot Password Page Error message doesn't match context Login_Functionality (QC-6)
- Issue 5: Number of messages on Direct Message icons do not disappear after message read (QC-7)

The last issue, 'Number of messages on Direct Message icons do not disappear after message read (QC-7)', is highlighted with a green border, indicating it is the focus of the current step.
